BUSY RATE

129.3%

Busy 129% — overbooked, rebalance

Metric	Definition	Value
N01	Busy rate	129.3%
N02	Utilization	125%
N03	Billable rate	100%
N04	Bench rate	0%
N05	Overtime ratio	0%
N06	Effort consumption	96.7%
N12	Training compliance	N/A

Suggested actions

Review required

- **REBALANCE_ALLOCATION** Review workload allocation with project leads and consider redistributing hours to under-utilised team members.

Rebalance recommendations

No Valid Rebalance Found · Week W3 · Required reduction 14.8h

Evidence degraded: candidate_data_unavailable

No valid rebalance found: Candidate Data Unavailable

No Valid Rebalance Found · Week W1 · Required reduction 6h

Evidence degraded: candidate_data_unavailable

No valid rebalance found: Candidate Data Unavailable

No Valid Rebalance Found · Week W2 · Required reduction 6h

Evidence degraded: candidate_data_unavailable

No valid rebalance found: Candidate Data Unavailable

No Valid Rebalance Found · Week W4 · Required reduction 6h

Evidence degraded: candidate_data_unavailable

BUSY RATE

82.8%

Busy 83% — under-allocated

Metric	Definition	Value
N01	Busy rate	82.8%
N02	Utilization	79.3%
N03	Billable rate	100%
N04	Bench rate	17.2%
N05	Overtime ratio	0%
N06	Effort consumption	95.8%
N12	Training compliance	N/A

Suggested actions*Review required*

- REVIEW_WITH_LINE_MANAGER** Discuss allocation gap with line manager. Confirm whether member is available for additional project assignments.

Methodology & definitions

Deterministic metrics use persisted PMO member-week facts. Project allocations shown in recommendations are evidence and are not summed into member facts again.

Metric	Formula
N01 Busy rate	Planned hours / Available hours
N02 Utilization	Worked hours / Available hours
N03 Billable rate	Billable hours / Worked hours
N04 Bench rate	Bench hours / Available hours
N05 Overtime ratio	Overtime hours / Standard hours
N06 Effort consumption	Actual hours / Planned hours
N12 Training compliance	Completed / Required
